

12 December 2022

Dear Parent/carers

Home Learning

Thank you for your support as we navigate the impact of snow disruption and the need to move to remote learning. Today students need to access work linked to the current school curriculum via their google classrooms (the same way they accessed learning during the lockdown). Work will be set by the classroom teacher for each lesson of a student's timetable and should be accessed at the time they would normally attend that subject in school. Throughout the lesson time, the students will be able to contact the teacher via email to ask any further questions they might have. Once the work is complete, students should submit their work at the end of the timetabled lesson.

Students would have been automatically enrolled to their google classroom at the beginning of the academic year. If your child is having difficulties accessing their google classrooms, please email your child's Head of Year for support.

The online learning process for each lesson will be as follows:

- Log into each google classroom following your timetable subjects and start times of lessons.
- Complete the lesson uploaded for that session
- Submit your work when finished
- Email you teacher with any questions you have about the work set

The school will be monitoring the home learning of students and we will work with parents/carers to make sure that we can make this time away from school as productive as possible. If you have any questions about the work set please contact your child's class teacher in the first instance, followed by the Head of Faculty. Contact details for staff can be found on our website.

Yours faithfully

K Maxwell
