

**Parent / Carer / Student Commitment**

In order to provide our students with a high quality education, we encourage students to take responsibility for their own behaviour and progress as learners. This can only be achieved if there is an active three-way partnership between the student, parent(s) / carers(s) and the School. We all have rights and responsibilities, and this agreement is to ensure that we are committed to working together for the same aim.

<p><i>Schools have a statutory responsibility under section 175 of the Education Act 2002 to safeguard and promote the welfare of children both in and out of school.</i></p> <p><i>As a parent/guardian I understand that I am responsible for disciplining my children or those under my care when they are not in school. I fully understand and am aware that the use of physical force in disciplining them may be illegal in certain circumstances. This may include where an implement has been used or where the use of that force has resulted in injury or where prolonged physical stress positions have been used. (This is where children are placed in a position of discomfort for a long period of time). I understand in these circumstances the school has a statutory duty to report such incidents to Children's Social Care and that the police may be asked to investigate.</i></p> <p><i>Should you want further information on statutory guidance and legislation please go to the schools child protection policy on the school's website.</i></p>
